

IIXAX | IIXCX | IIXIX

Rated 5-stars by Morningstar for the period ending 06/30/2021, based on 5-year risk-adjusted returns, out of 462 funds in the Short-Term Bond category.

FUND OBJECTIVE

To achieve high current income with low interest rate sensitivity by investing in short-term bonds of companies whose executives are purchasing the company's common stock.

INVESTMENT STRATEGY

- The Fund uses public information that is filed with the Securities and Exchange Commission ("SEC") on corporate insider buying activity for its investment decisions.
- Our research and quantitative back-testing of insider trading data over long periods of time has resulted in the development of a proprietary method of analyzing activity that we believe can substantially reduce the likelihood of default and bankruptcy.
- The underlying thesis is that corporate insiders know more about the prospects of their company than anybody else and would not take a stake in the equity of their company if the company were in jeopardy of declaring bankruptcy.

INVESTMENT PROCESS

- Utilize quantitative screen to select short-term U.S. corporate bonds where the companies have insider buying.
- Select best insider buying signals, focusing on position in company, number of insiders buying, etc.
- Hold a majority of the portfolio in investment grade (rated BBB or higher by Standard & Poor's Rating Services or the equivalent by Moody's Investor Service, Inc. or Fitch, Inc.) corporate bonds with an average effective maturity less than 4 years and an average modified duration less than 3.5.

The **Catalyst Insider Income Fund** seeks to offer investors an opportunity to invest in short-term U.S. corporate bonds issued by corporations whose executives are purchasing shares of the company's common stock.

Primary Goals & Key Reasons to Invest

Insider-Driven: The Fund only invests in short-term U.S. corporate bonds issued by companies whose corporate insiders (CEO, CFO, directors, etc.) are purchasing their own company's stock. We believe corporate insiders understand their own firm better than any outsider possibly could.

Seeks Reduced Credit Risk: Our historical research demonstrates that companies with insider buying experience substantially lower default and bankruptcy rates. The intuition is that corporate insiders would not take an equity stake if the company were in jeopardy of bankruptcy.

Low Interest Rate Sensitivity: We seek to reduce exposure to interest rate risk by holding a portfolio of corporate bonds with an average modified duration less than three and a half years.

Seeking High Current Income with Low Interest Rate Sensitivity

30-Day Sec Yields		Interest Rate Sensitivity	
Class I	2.20%	Wtd. Average Maturity Date:	7/6/2024
Class A	1.86%	Wtd. Average Effective Maturity:	3.08
Class C	1.21%	Wtd. Average Modified Duration:	1.85

SEC Yield calculated according to SEC form N-1A. The Advisor and the Fund have entered into an expense limitation agreement. The Fund's SEC Yield without expense limitation is 1.86% (I), 1.54% (A) and 0.87% (C) as of 06/30/2021.

Glossary:

Modified Duration: Provides a measure of a fund's interest rate sensitivity; the higher the value of a fund's duration, the more sensitive the fund is to shifts in interest rates. **Effective Maturity:** The weighted average maturity (in years) of the underlying bonds in a portfolio. **S&P Credit Quality:** A rating of A or higher indicates a strong capacity for a company to meet its financial commitments, a rating of BBB indicates adequate capacity to meet financial commitments, a rating of BB indicates the company is less vulnerable in the near-term but faces longer-term ongoing uncertainties, a rating of B indicates the company is vulnerable to adverse business conditions but has the capacity to meet financial commitments, and a rating of CCC or lower indicates the company is vulnerable and dependent on favorable conditions to meet financial commitments. Credit ratings are subject to change. **Barclays 1-3 Yr US Govt/Credit** (BBgBarc US Govt/Credit 1-3 Yr TR USD Index) is used to represent the U.S. corporate bond market. You cannot invest directly in an index and unmanaged index returns do not reflect any fees, expenses or sales charges.

Risk Considerations:

Past performance is not a guarantee of future results.

Investors should carefully consider the investment objectives, risks, charges, and expenses of the Catalyst Funds. This and other important information about the Fund is contained in the prospectus, which can be obtained by calling 866-447-4228 or at www.CatalystMF.com. The prospectus should be read carefully before investing. The Catalyst Funds are distributed by Northern Lights Distributors, LLC, member FINRA/SIPC. Catalyst Capital Advisors, LLC is not affiliated with Northern Lights Distributors, LLC.

Investing in the Fund carries certain risks. The value of the Fund may decrease in response to the activities and financial prospects of an individual security in the Fund's portfolio. The Fund is non-diversified and may invest a greater percentage of its assets in a particular issue and may own fewer securities than other mutual funds. The Fund may invest in lower-quality, non-investment grade bonds. Non-investment grade corporate bonds are those rated Ba or lower by Moody's or BB or lower by S&P (also known as "junk" bonds). Lower-quality debt securities involve greater risk of default or price changes due to changes in the credit quality of the issuer. Interest rate risk is the risk that bond prices overall, including the prices of securities held by the Fund, will decline over short or even long periods of time due to rising interest rates. Bonds with longer maturities tend to be more sensitive to interest rates than bonds with shorter maturities. These factors may affect the value of your investment.

IIXIX also rated 5-stars by Morningstar for the period ending 06/30/2021, based on 3 year risk-adjusted returns, out of 524 funds in the Short-Term Bond category. © 2021 Morningstar. All Rights Reserved. The information contained herein: (1) is proprietary to Morningstar and/or its content providers; (2) may not be copied or distributed; and (3) is not warranted to be accurate, complete or timely. Neither Morningstar nor its content providers are responsible for any damages or losses arising from any use of this information. Past performance is no guarantee of future results.

The Morningstar Rating™ for funds, or "star rating," is calculated for managed products (including mutual funds, variable annuity and variable life sub-accounts, exchange-traded funds, closed-end funds, and separate accounts) with at least a three-year history. Exchange-traded funds and open-ended mutual funds are considered a single population for comparative purposes. It is calculated based on a Morningstar Risk-Adjusted Return measure that accounts for variation in a managed product's monthly excess performance, placing more emphasis on downward variations and rewarding consistent performance. The Morningstar Rating does not include any adjustment for sales loads. The top 10% of products in each product category receive 5 stars, the next 22.5% receive 4 stars, the next 35% receive 3 stars, the next 22.5% receive 2 stars, and the bottom 10% receive 1 star. The Overall Morningstar Rating for a managed product is derived from a weighted average of the performance figures associated with its three-, five-, and 10-year (if applicable) Morningstar Rating metrics.
